Entry Level Full Stack Web developer, recently acquiring a certificate in full stack web development from UNC Coding Bootcamp. Using my new skills of front-end (JavaScript, CSS, React.js) and back-end (Node.js, Express.js, SQL) development. I have a voracious energy to learn new and existing technologies, a "do-whatever-it-takes" mindset to get the job done regardless of the obstacles, and a commitment to my team members to provide quality work in a professional manner.

EDUCATION

Coding
UNC Coding Bootcamp
09/2021 - Present

SKILLS

HTML · CSS · Git · JavaScript · jQuery · Node.js · Express.js · SQL · OOP · NoSQL · React · MERN · MongoDB

PERSONAL PROJECTS

Travel Buddy (10/2021 - Present)
- Travel Buddy's purpose is to bring peace of mind to a new or even experienced traveler that wants to explore different areas of the world.
- My responsibility and contribution to Travel Buddy was using my front-end JavaScript skills as well as jQuery to enhance user experience of the svg Map as well as user interaction functionality with other components of the web page

Game Corner (01/2022 - Present)
- Game Corner allows users to keep track of their collection of board games and also create a list of games they love, hate and would want to buy in the future
- My contribution to Game Corner was using Sequelize to turn on connection to the MySQL database and having it sync with the server to run using Express.js and Node.js
